Welcome Back All!

Welcome back to the start of our new academic year – it is great to have everyone back in school! The children have come back to school in very positive fashion, ready to learn and enjoy themselves with their friends. Our new F2/Reception pupils have made a great start this week also, and are busy making friends and learning all about their new school routines and activities.

We have been busy over the summer, completing significant maintenance and several planned premises improvements over the course of the holidays. Alongside the usual deep clean (including the shampooing of classroom carpets and polishing of the Hall floor!), we have been installing new Interactive Whiteboards, repairing and repainting outdoor seating and equipment, constructing a greenhouse in our Wildlife Garden and completing required Health & Safety and hygiene works.

Upcoming Curriculum Evenings

Please note that the school has arranged online curriculum sessions to take place the week after next, in order to provide insight into the learning and activities which your child will undertake here in school: **F2: Thursday 17 September; Y1: Tuesday 15 September; Y2: Wednesday 16 September.** All will be held online via GoogleMeet (invitations will follow next week) and will take place from 4-5pm. Please make every effort to join if possible, as these are really useful information sessions for you as parents and carers, enabling you to find out more about the curriculum, classroom environment and activities which your child will complete in each year group.

Cyclists & Scooterists!

It has been great to see so many pupils travelling actively (walking, scootering or cycling) upon our return to school! A reminder to hop off and push in the playground to park your bike or scooter, as the playground is so busy at the start and end of the school day.

September

Tuesday 15
(4pm-5pm)
