

Lydgate Infant School Council Meeting

March

Everyone came to today's meeting, apart from one School Council member who was poorly.

- To start with, one of our school council members talked about her ideas to make to school better:
 - Have a louder school bell
 - Have more KS1 scooters
 - Have more hand driers
 - Have more sinks
 - Have more Lego
 - Have more books

School council talked about all of these, and thought that they were all really good ideas, although lots of people thought that we already had enough Lego and books. Mr Bromage said that he would try to improve the other things.

- School Council talked about our school's 'Healthy Minds' Project, and how they would be part of this, as they would need to talk to the grown-ups who were helping to make sure that everyone was enjoying themselves in school.
